Flow of Research Paper Review System

Author submission of manuscript (paper and E-mail)

Initial review and recommendation of reviewers, who recommendations made by editor-in-chief or editorial board members in related domains

Editor-in-chief approves selected reviewers

Manuscript is submitted for review

Reviewer 1

Reviewer Comment

Reviewer 2

If the comments of reviewers 1 and 2 conflict, a third reviewer is appointed to review the manuscript

Result of review

Rejected

The editorial board responds to the author with reviewer comments attached

Accepted and recommended for publication

The editor-in-chief (or members of editorial board) determines review result based on the comments of the reviewers

Review again after revision

The editor-in-chief responds to the author with reviewer comments attached and requests the author to make proposed revisions

The revised manuscript is reviewed again (either by the original reviewers or new reviewers)

The author returns the revised manuscript in electronic format

Typesetting, proofreading, editing and finalization

Sent to press, distributed, and archived

The author is notified to submit transfer of copyright agreement

Notification to author that manuscript has been received

If the comments of reviewers 1 and 2 conflict, a third reviewer is appointed to review the manuscript

The author is notified to submit transfer of copyright agreement
